

## GPX4 (1P11) Rabbit Monoclonal Antibody

Catalog# HZ-YMA00381

### Product information

|                     |                                                                                                                             |
|---------------------|-----------------------------------------------------------------------------------------------------------------------------|
| 产品货号                | HZ-YMA00381                                                                                                                 |
| 别名                  | Phospholipid hydroperoxide glutathione peroxidase, mitochondrial;PHGPx;Glutathione peroxidase 4;GPx-4;GSHPx-4;              |
| 产品名称                | GPX4 (1P11) Rabbit Monoclonal Antibody                                                                                      |
| 类别                  | 抗体产品                                                                                                                        |
| 基因名称                | GPX4                                                                                                                        |
| 推荐应用                | WB,IHC-P,IF-P,IF-F,IF-ICC,ELISA                                                                                             |
| 反应种属                | Human,Mouse,Rat                                                                                                             |
| 存储缓冲液               | PBS, 50% glycerol, 0.05% Proclin 300, 0.05%BSA                                                                              |
| Human Gene ID       | 2879                                                                                                                        |
| Human Swissprot No. | P36969                                                                                                                      |
| 稀释度                 | IHC-P 1:200-1:1000, WB 1:2000-1:10000, IF-P/IF-F/IF-ICC 1:200-1:1000, ELISA 1:5000-1:20000                                  |
| 参考分子量               | 22kDa                                                                                                                       |
| 预测分子量               | 22kDa                                                                                                                       |
| 运输及保存条件             | Biological ice bag transportation. Store at -20°C for at least 12 months(Do not lower than -25°C). Avoid freeze/thaw cycles |
| 宿主                  | Rabbit                                                                                                                      |
| 同种型                 | IgG,Kappa                                                                                                                   |
| 细胞定位                | Cytoplasm                                                                                                                   |
| 纯化                  | Protein A                                                                                                                   |
| Clonality           | Monoclonal                                                                                                                  |
